EDUCATION

Northwestern University

Bachelor of Science in **Computer Science**, GPA: 3.3

Evanston, IL
Expected Jun 2027

Awards/Honors: Questbridge National Match Scholar

Relevant Coursework: Scalable Software Architecture, Computer Systems, Data Structures & Algorithms, Intro to Web Dev, Machine Learning, Fundamentals of C and C++, Computer Architecture, Microcontroller System Design, Advanced Digital Design

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, C/C++, Java, HTML/CSS, SQL, Flutter, Dart, Swift, Kotlin

Software: AWS, Firebase, ReactJS, Node.js, Vite, AngularJS, Docker, FlutterFlow, Visual Studio, Git, GitHub, Xcode, Spring

WORK EXPERIENCE

Expert Medical Billing

Technical Program Manager Intern

Indianapolis, IN
Sep 2025 – Present

- Lead end-to-end design of a customizable **ReactJS** dashboard that transforms monthly raw Excel reports into a constantly updated, user-friendly GUI with dynamic visual graphs, improving accessibility of financial and insurance data
- Manage and optimize data storage and retrieval using **AWS S3** and **RDS**, ensuring good cost-scalability and reliability
- Build real-time client messaging tab with **Socket.io** and integrate Slack **APIs** for seamless staff communication
- Drive high-level system architecture and design decisions, balancing performance, maintainability, and cost efficiency

Mntrme

Software Engineering Intern

Remote
Jun 2025 – Aug 2025

- Wrote end-to-end deployment documentation to improve transparency on **DigitalOcean** and **Xcode** infrastructure
- Automated QA with **Postman** testing suites, saving ~12 hours per release cycle on manual validation of key app flows
- Integrated AI moderation with **OpenAI API**, enabling real-time filtering of 100+ daily text and voice communications
- Fixed performance issues in **Flutter** + **Firebase UI**, improving app responsiveness by 30% across IOS and Android devices

Northwestern University College of Engineering

Frontend Developer

Evanston, IL
Jan 2025 – Mar 2025

- Led development of KrisBot, a GPT-powered Streamlit application in Python used by 100+ students for article analysis
- Eliminated session state conflicts, delivering seamless live UI updates and cutting user error rates by 25%, improving reliability

PROJECTS

Astrobio-Progression (2025 NASA Space Apps Challenge)

- Co-developed a full-stack AI-powered research aide analyzing 600+ NASA Space Biology publications, enabling interactive search, comparison, and visualization of experimental results
- Implemented **RAG** with **vector embeddings** for semantic search, improving retrieval accuracy in large research datasets
- Developed **Flask APIs** + **ReactJS** frontend to deliver real-time article comparisons, keyword insights, and visualizations
- Automated ingestion of NASA datasets using **Python** web scraping (**BeautifulSoup**, **Selenium**) and integrated external repositories (OSDR, Task Book, Space Life Sciences Library) to enrich research coverage

Article-Based Language Learning App

- Designed and developed a language study mobile app using **Flutter** and **Firebase**, enabling users to upload a custom text corpus and learn and track high-frequency words covering 85% of the material
- Engineered a custom Java API to parse, normalize, and translate text corpora, reducing duplicate word entries by 60%
- Reduced cloud read operations and costs by 90% by preloading corpus and grammar data into local **SQLite** database

SEC Insight Engine

- Automated ingestion of 4000+ SEC filings using custom **Python** EDGAR client, enabling real-time 10-K/10-Q lookup
- Engineered a **Python**-based SEC EDGAR client automating ingestion of over 4,000+ regulatory filings, enabling real-time lookup of 10-K and 10-Q reports by company
- Built **AWS Lambda** pipelines cutting manual data processing time by 90%
- Integrated **Amazon Bedrock (Claude 3)** for retrieval-augmented financial analyses, reducing research turnaround

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow

Career Preparation Fellow

Washington, DC
Jan 2025 – Present

- Accepted into a selective 18-month professional development program for high-achieving diverse talent
- Complete business case studies and assignments to grow leadership and technical skills
- Attend conferences hosted by industry leaders, such as Deloitte, LinkedIn, and Adobe

Northwestern University Emerging Coders

Treasurer

Evanston, IL
Oct 2024 – Present

- Led fundraising efforts through strategic grant applications, obtaining \$8,700+ to support club-led tech workshops
- Launched a mentorship initiative for 40+ first-gen and low-income underclassmen in a career development events
