EDUCATION

Northwestern University

Bachelor of Science in **Computer Engineering**, GPA: 3.3

Evanston, IL

Expected Jun 2027

Awards/Honors: Questbridge National Match Scholar

Relevant Coursework: Scalable Software Architecture, Computer Systems, Data Structures & Algorithms, Intro to Web Dev, Machine Learning, Fundamentals of C and C++, Programming Language Concepts, Intro to Comp Eng

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, C/C++, Java, HTML/CSS, SQL, Flutter, Dart, Swift, Kotlin

Software: AWS, Firebase, ReactJS, Node.js, Vite, AngularJS, Docker, FlutterFlow, Visual Studio, Git, GitHub, Xcode, Spring

WORK EXPERIENCE

Expert Medical Billing

Indianapolis, IN

Technical Program Manager Intern

Sep 2025 – Present

- Lead end-to-end design of a **ReactJS** dashboard that transforms monthly raw Excel reports into a constantly updated, user-friendly GUI with dynamic visual graphs, improving accessibility of financial and insurance data
- Manage and optimize data storage and retrieval using **AWS S3** and **RDS**, ensuring scalability and reliability
- Build real-time client messaging with **Socket.io** and integrate Slack **APIs** for seamless staff communication
- Drive high-level system architecture and design decisions, balancing performance, maintainability, and cost efficiency

Mntrme

Remote

Software Engineering Intern

Jun 2025 – Aug 2025

- Wrote end-to-end deployment documentation to improve transparency on **DigitalOcean** and **Xcode** infrastructure
- Automated QA with **Postman** testing suites, saving ~12 hours per release cycle on manual validation of key app flows
- Integrated AI moderation with **OpenAI API**, enabling real-time filtering of 100+ daily text and voice communications
- Fixed performance issues in **Flutter** + **Firebase UI**, improving app responsiveness by 30% across iOS and Android devices

Northwestern University College of Engineering

Evanston, IL

Frontend Developer

Jan 2025 – Mar 2025

- Spearheaded frontend development of KrisBot, a GPT-powered **Streamlit** app in **Python** used by 100+ students for transcript and article analysis
- Resolved session state conflicts, ensuring seamless live UI updates and reducing user error rates by 25%

PROJECTS

Article-Based Language Learning App

- Designed and developed a language study mobile app using **Flutter** and **Firebase**, enabling users to upload a custom text corpus and learn and track high-frequency words covering 85% of the material
- Engineered a custom Java API to parse, normalize, and translate text corpora, reducing duplicate word entries by 60%
- Reduced cloud read operations and costs by 90% by preloading corpus and grammar data into local **SQLite** database

SEC Insight Engine

- Automated ingestion of 4000+ SEC filings using custom **Python** EDGAR client, enabling real-time 10-K/10-Q lookup
- Engineered a **Python**-based SEC EDGAR client automating ingestion of over 4,000+ regulatory filings, enabling real-time lookup of 10-K and 10-Q reports by company
- Built **AWS Lambda** pipelines cutting manual data processing time by 90%
- Integrated **Amazon Bedrock (Claude 3)** for retrieval-augmented financial analyses, reducing research turnaround

Cats Course Ave

- Built an academic planner with **Python** web scraping + **ReactJS/TailwindCSS**, helping students visualize requirements
- Integrated **Firebase** authentication and deployed chatbot assistant with **Gemini** to guide users through course selection

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow

Washington, DC

Career Preparation Fellow

Jan 2025 – Present

- Accepted into a selective 18-month professional development program for high-achieving diverse talent
- Complete business case studies and assignments to grow leadership and technical skills
- Attend conferences hosted by industry leaders, such as Deloitte, LinkedIn, and Adobe

Northwestern University Emerging Coders

Evanston, IL

Treasurer

Oct 2024 – Present

- Led fundraising efforts through strategic grant applications, obtaining \$8,700+ to support club-led tech workshops
- Launched a mentorship initiative for 40+ first-gen and low-income underclassmen in a career development events
